PRODUCT TITLE: Rio Precious Legs

STRAPLINE: Micro-dermabrasion hair removal

PRODUCT FEATURES:

- Use on any length of hair.
- Closer than shaving.
- No nicks, no cuts.
- Stubble free, silky smooth, long lasting smoothness.

SHORT PRODUCT DESCRIPTION:

Avoid the nicks and cuts of shaving and the pain of plucking legs once and for all! *Rio Precious Legs*™ uses Micro-dermabrasion technology for safe, controlled gentle exfoliation of the top layers of dead skin and it helps with circulation too, to give a radiant glow to the treated area. Micro-dermabrasion is a non-surgical procedure, is non-invasive, but effectively removes unwanted hair as close to the follicle as possible, leaving legs feeling fresh, hair-free, beautiful and silky smooth to the touch. *Rio Precious Legs* is so easy to use – make it part of your regular routine.

INDEPTH PRODUCT DESCRIPTION:

Rio Precious Legs Micro-dermabrasion technology gives you the smoothest legs yet.

Remove unwanted hair, exfoliate your skin and say goodbye to the nicks and cuts you are left with after shaving and avoid the pain of plucking or epilation. The results are sleek, silky legs that really get you noticed.

Rio Precious Legs is designed to be easy to use. Simply wash the treatment area with warm soapy water and dry thoroughly. Attach a Micro-dermabrasion disc, push the slide button to turn on and bring the disc gently into contact with the skin using a circular motion over the hairs. What could be easier?

The appliance can operate in either clockwise or anti-clockwise rotation, effectively removing hair by working in the opposite direction to hair growth. Some users may experience a little redness to the skin immediately after use; this is quite normal and will fade soon after you've finished.

Use your *Rio Precious Legs* as often as required for silky smooth skin.

Your Questions Answered.

Can I use Rio Precious Legs™ on all areas of my body?

Rio Precious Legs™ is designed specifically for body hair, but not for facial hair. Do not use on your face or neck.

Can I use any ointment or lotion on my skin after treatment?

We do not advise using perfumed moisturisers as these may irritate your skin causing redness. unperfumed, soothing lotions may be used.

Do I need to exfoliate first?

No. Rio Precious Legs™ is designed to act as an exfoliator as well as a hair remover. Its micro-dermabrasion technology removes all dead skin during treatment, leaving your skin feeling soft, silky and looking radiant.

It isn't removing very much hair, why?

You are applying too much pressure. You must bring the disc GENTLY onto your skin. The ideal pressure will only cause the motor to slow slightly and you will feel a warm tingling sensation. Applying too much pressure will greatly reduce the effectiveness of exfoliation and hair removal. The motor is

geared to either stop or slow significantly if too much pressure is applied. If you are removing a lot of hair the first treatment may take some time.

Are you working in the same direction of hair growth?

The most effective results will be achieved by working in the opposite direction of hair growth using a circular anti-clockwise motion.

What is the difference between shaving and using Rio Precious Legs™?

Unlike traditional razors Rio Precious Legs™ actually exfoliates the skin, removing dead skin. This allows the micro-dermabrasion disc to remove the hair closer to the hair follicle, hence weakening the hair and reducing the speed at which it grows back, so your skin will stay smoother for longer.

BOX CONTENT:

- Rio Precious Legs Micro-dermabrasion unit.
- 50 micro-dermabrasion discs.
- Adaptor and travel case.
